WORK EXPERIENCE

REDBUYERS REALITY | FULL STACK DEVELOPER Mississauga Ontario, Canada, Remote | 10/2022 - Present

- As Lead Developer, I drive the creation and maintenance of **Laravel**, **Vue.js**, **Nuxt.js**, and **Node.js** applications, collaborating with front-end teams.
- I ensure a scalable and high-quality backend infrastructure.
- I have hands-on experience in facilitating home buying and selling processes through IDX and VOW in Canada.
- Successfully developed and launched redbuyers.com from the ground up, utilizing **HTML**, **CSS**, and **JavaScript**.
- Throughout these projects, I prioritized optimal user experience, collaborated with developers for seamless integration, and enhanced performance and security through diligent testing and optimization, demonstrating my web development and design leadership proficiency.

NYUSOFT SOFTWARE SOLUTIONS | SOFTWARE PROGRAMMER Ahmedabad, IN | 02/2022 – 09/2022

- In my one-year tenure as a PHP developer, I specialized in Laravel and CodeIgniter frameworks, crafting dynamic web applications with **MySQL** databases, **HTML**, **CSS**, and **JavaScript**.
- I successfully delivered projects ranging from marketplaces and e-commerce platforms to project management systems, incorporating various payment gateways such as **Stripe**, **Paytm**, **PayPal**, and others.
- Additionally, I gained expertise in integrating **Google APIs**, including Meet, **OAuth**, and **Gmail**, and honed my client communication skills through regular calls and interactions.

INNOVATIVE KNOWLEDGE SOFTWARE SOLUTIONS | SOFTWARE DEVELOPER Mumbai, IN | 01/2021 – 01/2022

- I actively contribute to Innovative Knowledge Software Solutions in a part-time capacity as a software developer. Balancing this role with my primary job.
- Completed mobile application development project, demonstrating my proficiency in utilizing APIs for seamless integration. This collaborative effort allows me to leverage my skills effectively while managing my workload between both professional commitments.
- In addition to my role as a software developer at Innovative Knowledge Software Solutions, I also specialize as an SEO expert. This dual expertise enables me to contribute not only to the technical aspects of project development but also to optimize digital content for search engine visibility and performance.

PROJECTS

REDBUYERS 

VUEJS, LARAVEL, MYSQL

- A platform for buying and selling homes across Canada. Built on **LARAVEL**, **Vuejs**, and **MySQL**. Includes functionality for generating home valuations.
- Users can search for homes by location, price, and other criteria.
- Users can contact sellers directly to schedule viewings.
- Users can submit offers on homes.
- The platform provides a secure and transparent way to buy and sell homes.

AGENTSHADES

REACTJS, NODEJS, MONGODB

- A platform where users can create websites using a built-in builder. Built on **ReactJS**, **NodeJS**, and **MongoDB**.
- Users can choose from a variety of templates and customize their websites with their content.
- Users can add features such as contact forms, e-commerce, and social media integration.
- The platform is easy to use and does not require any coding experience.

CELLSHARE

LARAVEL, HTML, CSS, JQUERY

- A marketplace platform where users can buy and sell cells. Based in Germany for research and development. They are built on **Laravel**, **HTML**, **CSS**, and **JQuery**.
- Users can search for cells by type, condition, and price.
- Users can contact sellers directly to negotiate prices.
- The platform provides a secure and efficient way to buy and sell cells.

GOVERDHAN ECO VILLAGE

FLUTTER, LARAVEL, MYSQL

- An accommodation mobile application. Users can register and book a place to stay. Built on **Flutter** and **Laravel** with **MySQL** database management system. APIs are authenticated using **JWT** and **Google OAuth**.
- Users can search for accommodations by location, price, and other criteria.
- Users can book accommodations directly through the app.
- The app provides a convenient and easy way to find accommodations in Goverdhan Eco Village.
